RIENZI'S BIENNIAL SYMPOSIUM HIDDEN HANDS: UNTOLD STORIES OF THE OBJECT

Saturday, November 6, 2021

Call for Papers Deadline: September 1, 2021

Rienzi, the house museum for European decorative arts of the Museum of Fine Arts, Houston, presents the virtual symposium, *Hidden Hands: Untold Stories of the Object*.

Geographic exploration and colonial expansion led to the introduction of new materials and technological innovation in the early modern period. These developments created an increased demand for goods made of ceramics, glass, exotic woods, textiles, and metals. The refining of raw materials and the production of these goods depended upon a diverse labor force made up of men, women, and children from across the globe. Despite the integral roles played by these workers in all of these varied enterprises, their names and contributions have often been lost to history. Who were these people? How did they interact and engage with these new materials and goods? What social, political, and economic forces contributed to the exclusion of their narratives? The symposium invites scholars to reconsider established ideas of craftsmanship and artistic authorship through the telling of these "hidden" stories.
